

## Application for a salary increase for doctoral students

The first salary increase occurs after one year of full-time studies (60 credits), including at least 37.5 passed course credits as well as successfully carrying out a planning seminar (worth 22.5 credits).

The second salary increase occurs after two years of full-time studies (120 credits), including at least 52.5 passed course credits as well as successfully carrying out a midway seminar (worth 45 credits).

The third salary increase occurs after three years of full-time studies (180 credits). This is based on an assessment by the supervisor in the doctoral student's individual study plan that approximately one year of full time studies remains before the public defence.

Name:

Personal identity number:'

Based on 60 ( ), 120 ( ), 180 ( ) passed credits in the third-cycle studies, it is requested that the salary be increased as of \_\_\_\_\_(date)

Passed course credits:

Name of the courses as well as the grading date:  
(Ladok extract attached.)

Planning seminar (22.5 credits): \_\_\_\_\_(date)

Midway seminar (45 credits): \_\_\_\_\_(date)

According to the individual study plan, one year of full-time studies remains from \_\_\_\_\_ until the public defence.
